Our activities:

- Activity group 1: **injection repair**; activity group leader Harald Schmitt
>>> start with a guideline for injection repair on Bored tunnels
- Activity group 2: **preventive maintenance and tunnel refurbishment** ; activity group leader Sallo van der Woude
>>> finalized the work on minimum inspection criteria.
>>> continue with (automated) failure mode analysis
>>> WTC 2024 workshop on relining techniques in existing tunnels
- Activity group 3: **structural fire protective linings in road tunnels** activity group leader Darren Page.
>>> review of ITA-report 18 is finalized
>>> step 1 set up a (missing) contents list
>>> step 2 fill the gaps.
>>> draft report WTC 2024
