**The Icelandic Tunnelling Society is an independent Society of Corporate and ordinary members created in 1974.**

## ICELAND – Activity Report 2013

Excavation was completed on the Budarhals hydro scheme.

Excavation started on the 7, 2 km Vadlaheidi road tunnel in July 2013. At the end of the year some 1.370 m had been excavated.

Excavation started also on the 7, 5 km Nordfjörður tunnel in November 2013.

Further tunnel projects are being prepared for tender such as the Husavik transportation tunnel (1 km).
