

### **PROJECTS UNDER CONSTRUCTION OR JUST TERMINATED**

#### **Extensions of the Buenos Aires Metro Lines.**

Last set of stations inaugurated (yellow); Extensions constructed and ready to be opened in 2013, once the rolling stock does arrive (red) and Extensions still under construction (grey).

#### **2nd Extension of the Metro Line H, subdivided into 2 sections:**

North section, comprising 4 new stations currently under construction with the NATM method and featuring a single large cavern of approximately 18 m width (Córdoba, Sta Fe, Las Heras, Facultad de Derecho) and the associated 2 track single tube running tunnels. This section is scheduled to be opened to operation in 2016.
