Our History

Sato Kogyo traces its roots to one of the oldest turnkey contractors in Japan. Established in 1862 and headquartered in Tokyo, Sato Kogyo laid the cornerstone of modern building technology by focusing on and developing newer and more efficient construction methodologies that are still relevant around the world today.

Over a rich history of more than 150 years, Sato Kogyo has accomplished many building and civil engineering projects of varying scale, nature and complexity in Japan, Singapore, Malaysia, Thailand, Cambodia, Myanmar, China, Indonesia, Vietnam, Ethiopia, Afghanistan, Middle East, Europe and North America.

In 1972, the firm recognised the growing construction activities in the Asia Pacific region and expanded its footprints rapidly beyond Japan. The strength of the Singapore Office has evolved into Regional Headquarters in 2002 to oversee the emerging East Asian markets. Over the last decades, Sato Kogyo has set up offices in Singapore, Malaysia, Thailand, Cambodia, Myanmar, China, Indonesia and Vietnam, where some of these offices continue to be active today.

Our Mission

Our mission is to build a world class organisation with international presence and strong emphasis on customer satisfaction in the delivery of design, engineering and construction services.

This is achieved in the spirit of our credo Total Project Excellence by adopting a total project management concept where every qualified and experienced expertise is committed to managing and executing projects in the most innovative and cost effective approach.
