Hagerbach Test Gallery is a fantastic World Underground

The numerous tunnels, caverns, experimental fields, laboratories and seminar rooms offer a perfect base for research, development, testing, real scale trials, as well as all kinds of events. A wonderful and unique constellation world-wide.

Specialists from all over the world are using the infrastructure as research laboratory and training camp. Hagerbach Test Gallery works on own developments as well as upon customers demand and in cooperation with enterprises, associations and research institutes.

The Hagerbach team of Experts has acquired broad knowledge through collaboration with Swiss national, European and other international research projects. Since its formation in 1970 Hagerbach constantly feels the pulse of time. Its business partners highly value quality, competence, flexibility and adventure when working with and in Hagerbach. Meeting and working 1:1 in real and digital test environments with Hagerbach ensures to gain very special insight into pioneering achievements in mining and tunnelling.
