Venue: Bella Center, Copenhagen

## Participants

Member Nations present: 21

Number of Participants: 30

## Minutes

The ITAYm Steering Board welcomes the member nation delegates, candidates and other participants to the meeting. Jasmin Amberg (chair ITAYm) presents the current ITAYm steering committee and informs Chrysothemis Paraskevopolou and Bartłomiej Dziuban reached the end of term and will leave the committee after the GA. Jasmin Amberg will step down as Chair will support the new steering board as Past Chair for another year.

The ITAYm steering committee thanks Chrysothemis and Bart for their outstanding work in the ITAYm steering committee and for their passion for the young members.

## Activity reports and ongoing projects

Detailed information about the following topics can be found in the attached presentation.

-  Report from ITAYm Steering Committee
-  Projects of ITAYm Steering Committee
-  Report from Member Nations

## Elections

To achieve continuity in the ITAYm Board the Chair and Vice-Chair are chosen by the existing Board and should already be members of the Board. Alex Nowak La Flor (Brazil) and Eyðbjørg Amanda Petersen (Denmark) will take over the two positions.

The ITAYm Board decided to open 3 positions for new members. The Member Nations nominated 6 Candidates. The ITAYm steering committee congratulates all candidates to their nomination. The candidates were presented to the member nations delegates ahead of the General Assembly.

### Election Rules:

-  Majority of 50% must be reached (in line with the ITA By-Laws)
-  Every voting delegate has as many votes as open positions each round
-  Max.4 rounds of ballot; the candidates with the fewest number of votes are excluded from the next round

Member Nation	Name (First, Last)	Member Nation	Name (First, Last)

# YM-GROUP STARTER KIT

- The YM-Group Starter Kit is available under this Link [ITAym StarterKit.pdf \(dropbox.com\)](https://www.dropbox.com/s/35/ITAym%20StarterKit.pdf)
- The content should support nations in setting up a young members group and give some ideas for improvement for existing young member groups.
- If you have additional ideas and recommendations feel free to contact us ([itaym@ita-aites.org](mailto:itaym@ita-aites.org)), we are happy to add any useful inputs.

# CONTACT TO WG & COMMITTEES

- Goal:  
Improve the contact between WG / Committees and young members
- Questionnaire for WG / Committees sent out
- Summarizing the answers and sharing the information through a one-pager.
- Still many WG missing, but we complete it step by step

ITAttech

Data Management | Excavation | Lining, Support & Waterproofing | Maintenance & Repair | Design

Nick Chittenden

*"The aim of ITAttech is to provide a platform for engineers, manufacturers, contractors and suppliers to draw global experience and expertise together for the benefit of the whole industry, and to find ways of supporting the introduction of new techniques and products by collaborating on the development of design and performance criteria and preparing application of best-practice guidelines."*

*"The ITAttech activity groups (AG) include all processes related to underground construction such as Data Management, Excavation, Lining, Support & Waterproofing and Design."*

*"We would expect two main activities from the young members. Firstly, to use the guidelines available and comment on the value and use in the field. Secondly, to look at their day to day activities and identify those areas where they believe the industry needs to develop new guidelines or white papers on new technologies. Finally, and hopefully leading from the first two, we would like to encourage young members to look at careers in the suppliers industry and get involved in specialising to be able to contribute by writing these documents in the future."*

Expected date of publication in 2023 : **Logistics aspects for long & deep tunnels**  
The objective is to give an overview on the most relevant logistic aspects and to show how those aspects can be handled from the early stages of a project in order to create the best possible work environment and facilitate the project's acceptance. We have also constituted an international database of Owner's point of view on this topic. The focus is on all different aspects related with logistics.
